Education

I.K Gujral Punjab Technical University

Bachelor of Technology in Computer Science Engineering (CGPA of 8.0)

August 2020 - July 2024

Punjab, India

Triple M Public School, Hoshiarpur

Senior Secondary Education (88.9 %)

April 2019 - March 2020

Hoshiarpur, Punjab

Experience

Solitaire Infosys

Jan 2024 – Present

MERN stack

OnSite

- As an intern at Solitaire Infosys, I am currently diving into MERN stack web development, immersing myself in building applications with MongoDB, Express.js, React, and Node.js.
- Within the MERN stack, I'm dedicatedly exploring various aspects of development, from database management with MongoDB to server-side scripting with Node.js and Express.js.
- Additionally, I'm honing my skills in crafting robust web applications with React on the frontend. Every task in MERN stack development presents an opportunity for me to learn and grow. I'm embracing each challenge with enthusiasm, striving to improve my skills and contribute meaningfully to MERN stack projects.

Technical Skills

- **Languages:** C/C++, Python, HTML/CSS, JavaScript
- **Frameworks/Libraries:** React.js, Bootstrap5 Node.js, Express.js
- **Databases:** NoSQL(MongoDB)
- **IDE & Tools:** Visual Studio, VS Code, Postman

Projects

Car Selling Website | HTML, CSS, Javascript | Live Link

- Developed a dynamic multi-page car website showcasing a diverse range of vehicles, providing users with an immersive and engaging experience.
- Utilized HTML5 and CSS3 to structure and style the website, focusing on creating an intuitive user interface and seamless navigation.
- Integrated JavaScript to enhance user interactions, incorporating features such as dynamic car filtering, image sliders, and form validation.

E-Commerce Website | MERN stack | Github Link

- Developed a highly scalable e-commerce website using the MERN(MongoDB, Express.js, React.js, Node.js) stack.
- Integrated popular payment gateways such as Stripe or PayPal to facilitate secure and seamless online transactions.
- Utilized responsive web design principles to ensure the website is accessible and user-friendly across various devices and screen sizes.

Tour-Booking website | ReactJs | Live Link

- Designed and developed a responsive and user-friendly tour booking website using React.js, providing an intuitive interface for users to browse and book tours.
- Implemented dynamic UI components and interactive features to enhance user engagement and improve the overall user experience.
- Implemented form validation and error handling mechanisms to improve data integrity and provide users with meaningful feedback during the booking process.
